ANNUAL GENDER SENSITIZATION ACTION PLAN

Our institution aims to create a transformative shift in attitudes and behaviors among the students by fostering qualities like respect, understanding, and equality for all. The following objectives were identified for the year to sensitize students on gender equity.

- Empowering students and change, paving the way for a more just and compassionate world.
- To conduct workshops and training sessions that focus on the current status of gender related issues and how to address it in an unbiased way.
- To develop the quality of inclusivity in the campus
- Collaborate with other agencies that are specialized in handling gender-related issues.
